

Teesside & District Branch
FIRST® LEGO® League
National finalists 2017-2018
Showcase

**Speakers: Students from John
Emmerson Batty Primary School,
Redcar**

2017-2018

**Design solutions for real world problems and build
a mission-solving robot made of LEGO®!**

Saturday 19th May 2018

11am until 1pm

**Stockton Central Library
Church Rd, Stockton-on-Tees
TS18 1TU**

Hot on the trail of their final in Bristol back in February, we are proud to help students from Emmerson Batty Primary School, Redcar to showcase their winning ideas. They went through to the finals after attending an event at University of Teesside in January 2018. BCS Teesside Chair Andrew Simpson was a part of the judging panel.

FIRST® LEGO® League is a global science and technology challenge for teams of students, to encourage an interest in real world issues and develop key skills that are crucial for their future careers. The students work together to explore a given topic and to design, build and program an autonomous LEGO® robot to solve a series of missions.

FIRST® LEGO® League is for young people aged 9 to 16 years, working in teams of up to ten students with a supporting adult coach. Each year FIRST® LEGO® League releases a new challenge for the teams. The challenge involves a robot game and a research project, and students need to demonstrate the FIRST® LEGO® League core values throughout all their work.

We make IT good for society.

***Everyone is welcome.
Admission is free***
